

# What makes us special

London North West  
University Healthcare  
NHS Trust

Our Trust is one of the biggest and busiest, and we love everything that comes with that. Almost 9,000 colleagues to learn from and link with. Progression and development across more than 70 different services. Variety that makes days fly by, which all means you'll build a wealth of experience, fast.

And above all, the chance to change more lives through your work – whether in a clinical role or not. If you're ready to grab every opportunity with both hands, why limit yourself elsewhere?

## **We have all you need:**

- An amazing team of people. They'll support you, teach you, laugh with you, even care how your day's going. We're people who love people.
- Real job satisfaction. We all get on brilliantly and have fun. But, we never forget that almost a million people rely on us to be there for them. Proud doesn't begin to describe it.
- Several sites and hospitals, community services, comprehensive clinical units and a huge, multi-skilled team means we've all the career opportunities you want now – and in the future.
- Huge benefits package that includes a pension, generous annual leave, childcare voucher scheme, on-site nurseries, travel loan and flexible working.
- A focus on innovation that means we want to listen to your ideas – and put them into action.
- Training and development that includes fully funded qualifications, as well as learning on the job from our huge number of in-house experts. We hope you'll become one of them.

## **This is a Trust on a journey...and a mission:**

To improve more lives, as one amazing team who are wholehearted, not fainthearted.
